Its a fun game i played it a lot, but the game wont save the progress. Not recommended to buy at this state at all right now. The game stoped saving the progress Late in the game. (10.3.19). bro screw ravenwest. I haven't enjoyed a game this much in a long time. Many games these days don't use the possibilities of digital space in very exciting ways. Forgoing the excessive realism of many contemporary titles, this game echoes the use of space in early 3D titles like Mario 64 or later games like Shadow of the Colossus. It feels expansive and awe inspiring in a way that has been lost to many creators, perhaps because money has become the bigger concern. I would love to see more from the creators of this game. Specifically, more narrative, even if abstract and open to interpretation, would be very enjoyable. hey it's kinda fun, try it out. 5min of this game

2/10 broken but good for lolz

This is a not so great Mario kart like racing game. not sure what that is?  
You do laps on a race track and collect power-ups to help you or hinder your opponents.

The game has 3 modes of play, adventures: where you collect apples, go though hoops, or do a fast lap, contests: where you play 1 of 4 sets of chosen maps and the player with the most points after the last race wins, & free play: here you can play any of the levels in contest by its self.

It has 1-4 player in local co-op and you can play as hello kitty or 9 other friends to race in cars, boats, or planes with 10 different models for each to play in 16 levels (some of the plane ones are reused cart ones).

With powerups like cones (place on track or drag behind you), cupcakes (shoot at other racers or drag behind you), stopwatch (slow other racers), rainbows (super boost&maybe invincibility), boosts (3 small or 1 big), & a shield.

The games not very hard and there are a few bugs like objects being a bit off the ground, your boat taking on water, and some levels the ai will get lost.

It's not worth \$20 and only good as a joke as i feel only a small child, being drunk, a youtuber, or a die hard hello kitty fan could enjoy this.. Honestly I never even heard of this game up until the day after its release and I just happened to stumble upon a video on youtube of someone playing it and after watching that video for about 10 min I jumped on steam and bought it. So far it has not disapointed me in the slightest. to me it feels like a cross between FANF and Outlast. So if you enjoy those kind of survival games I Highly Recommend this game. It will not Dissapoint. also i would like to add I've been finding it very hard I feel like everytime i open a door or come out of hiding the big bad wolf is waiting around the next cornor lol

New High Score.

rid steam of this filth gaben.. 300 Beards in and yet i am not disappoint.. Simple and gets boring pretty darn quick.. Chiru best girl. short but good. its funny :). Simple yet highly addictive gameplay. Great casual game. Very cheap well worth the money. I bought it since it was so highly rated to see what everyone was talking about and was not dissappointed. The game looks good and has incredible music.
